

WASHINGTON- Congressman Lee Terry (R-NE) believes Congress should vote on 'The American Energy Act' before the August district work period. Congress is scheduled to adjourn on Friday.

"High gas prices have strangled Nebraska families for months now and Congress can no longer sit back and do nothing. We have a solution to high gas prices that involves the expansion of alternative fuels, drilling and conservation. I will not vote to adjourn without voting on 'The American Energy Plan'. I call on House Speaker Nancy Pelosi to do the right thing for all of America and bring this bill to the floor for a vote," said Congressman Terry.
